

Gateway was founded in UK, this is a highly regulated market for education. All the student welfare officers have child protection level two qualifications, as well as first aid training, the company has designated safeguarding team. We are accredited by AEGIS (Association for the Educational and Guardianship of International Students) the accrediting body for guardianship companies in the UK.

The UK office provides training to US office, we share updated information on the industry all the time, this is one of the unique advantages to Gateway over other companies.

Since Gateway was established in 2004, it has created a rich network within schools in the EU, Gateway can support US schools to develop varied international programs across a number of European countries, e.g. Gateway can arrange exchange programs between schools in the EU and schools in America. We are able to introduce students from many different countries as well as China. Gateway (UK) partnered schools are receiving applications from more than 26 countries.

Gateway appreciates the need to always be professional and build a strong reputation for Gateway and the school, we strive to protect the reputation of the school internationally and discuss marketing with the school, using both the school's aims and our knowledge of the markets to provide quality, targeted marketing.

Anna Irby
Capistrano Valley Christian School

For the past year, Capistrano Valley Christian School has had the pleasure of working with Gateway Education, USA. Since the beginning of our partnership, Gateway Education USA has proved itself to be a vital partner in our desire to increase our international student population and provide a quality program of ongoing student monitoring and constant communication and reports to natural parents of students. Through their efforts and professional demeanor, we have had the opportunity to enroll quality students into our international program who are proving their success inside and outside of the classroom.

Throughout the admission process, the staff at Gateway Education USA are efficient, helpful and especially quick to respond to any questions or concerns from the admissions office or the school. Their ability to be available to the students and speak to them in their native tongue when necessary is an added plus to their program. In sum, we are very pleased to be associated with Gateway Education USA, and look forward to many more years in working together to help international students achieve their academic goals.

Please feel free to contact me if you desire any further information regarding our partnership with Gateway Education, USA.
