

## Inner Circle Education Center

### International Education: A Turning Point in Life

North Hills Christian School is proud to partner with  
Inner Circle Education Center.

Inner Circle Education Center (ICEC) is a long-term education consulting agency which offers assistance to students from the People's Republic of China seeking an education in the United States.

#### Education Consulting and Homestay Placement:

ICEC's bilingual education counselors follow each student throughout their educational experience, providing educational consulting, homestay placement (when necessary), and acting as a constant liaison between the Chinese student, Chinese parents, host family, and North Hills Christian School.

#### Instructional Services:

ICEC maintains a team of educators, including trained ESL teachers and a curriculum specialist, to assist the students in language acquisition, cultural awareness, and various school subjects. In addition, ICEC's offices in Los Angeles and Shanghai are certified iTEP Testing Centers, offering test preparation courses for incoming students.
